—get your Palm Beach  
Suit to-day!

Yes, men, when you stop to think that Rome burned down in 72 hours, it's almost a calamity to spend even one afternoon in a heavy woolen suit that was made for March and never meant for June.

A good Palm Beach or Tropical suit is not a luxury.

Why at our prices with our Values, the total cost is less than the Railroad would charge you for an overnight trip in a Refrigerator car.

Are you sold on the idea?

Then see the suits.

All colors—includes plenty of dark patterns.

### —Talks About Building

Lumber prices are deflated. Lumber, the last great commodity to advance in price, has been the first to come back to a normal basis. While lumber constitutes less than 30 per cent of the cost of the average frame house, these reductions mean an important saving in building costs.

Building labor is more efficient. A reduction in the wage scale is less important than a full day's work for a day's pay. Increased efficiency has already brought about a substantial reduction in costs.

You can build now with confidence. Deliveries of material are certain, prices can be protected against advances, and building labor is available. No longer is it necessary to build on the "cost-plus" plan.

There are good reasons why many people should build homes for themselves. If you have been thinking about building we invite you to talk it over with us personally. We will gladly help in meeting any of your building problems and our friendly counsel and assistance will not obligate you in any way.

## Lower Prices on Nash Cars

Effective July 2

Nash prices will be reduced, effective July 2.

This conforms to our statement made last October that Nash prices would be maintained until at least July 1, 1921.

The reasons were plain. Until manufacturing costs were lower we could not cut price without cutting value, as Nash prices were not inflated.

We pointed out then that while the average rise in the price of motor cars for a four-year period had been 76% the price of Nash cars had been raised but 31%.

This 31% included the addition of cord tires as standard equipment and many other additions and refinements which added materially to the value of Nash cars.

So we re-affirmed our fixed intention of rigidly upholding the high quality of Nash cars.

The Nash Motors Company, Kenosha, Wisconsin

Since then every effort of the Nash organization has been centered on effecting sound manufacturing economies.

New labor-saving devices were added and production practice so perfected that every process of Nash manufacture is a model of efficiency and economy.

The savings have been substantial. And they demonstrate as nothing else could demonstrate the remarkable Nash ability to produce fine cars at the lowest possible cost.

Even while working production costs downward we were improving Nash cars still further.

Now we can announce for July 2 a greater Nash value than ever at a reduced purchase price.

At the new prices the leadership of Nash cars is even more emphatically apparent.

### Here Are the New Nash Prices Effective July 2

## THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep and Daylight Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine, but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actually dreaded to see night come, as I could not sleep, and was always so restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen-year-old boy."

Tanlac is sold by leading druggists everywhere.—Advertisement.

### Oh, Heavens, No!

She had accepted his embraces without reserve, but every time she seemed to be on the verge of going to sleep. It was most exasperating. Finally he remonstrated.

"See here," he demanded peevishly. "Why do you always appear asleep when I kiss you?"

"Why, Harry," she retorted indignantly. "You don't for a minute think I'm the sort of a girl who would do such things with my eyes open!"—American Legion Weekly.

### CUSTOMS FIFTY YEARS AGO

Who among us would say to-day, "I never use a Dentifrice, I never have to?" Yet fifty years ago, odd as it may seem, not one person in 1,000 used a Dentifrice—or even a tooth brush.

So to-day, after more than 30 years of persistent publicity of Allen's Foot-Ease, the Antiseptic Powder for the Feet, not many well-turned-out people care to confess, "You know I never have to use a Powder for the Feet."

More than One Million five hundred thousand pounds of Powder for the Feet were used by our Army and Navy during the war.

The reason is this: Increasing and confining the feet in Leather or Canvas Shoes bound to create friction, more or less. Allen's Foot-Ease removes the friction from the shoes, and freshens the feet. It is this friction which causes smarting, callouses, corns and bunions. You know what friction does to your motor-car axle. Why not remove it from your footwear by shaking into your Shoes to-day, Allen's Foot-Ease, the clean, wholesome, healing, Antiseptic powder? Get the habit, as millions now have it.

### Knew All About Caruso.

A musician brings a pleasant story from New York regarding Enrico Caruso, at whose recovery from a severe illness recently the whole world rejoiced.

A gentleman was discussing the illness of the great tenor with a friend, his small son being present.

"Caruso is certainly a sick man," he said.

The child's countenance brightened; the light of knowledge shone in his eyes.

"Why, Caruso isn't a man?" he replied. "He's a phonograph record."

### SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because it is mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

### Eve's Ancestor.

A young mother in Chicago was endeavoring to act as her own Sunday school teacher in the matter of imparting fundamental biblical knowledge to one of her offspring.

After reciting the story of Adam and Eve the mother began catechizing the youngster.

"Who was the first woman?" There was a momentary silence and then the kiddie replied:

"God's grandmother."

### TAKE GOOD CARE OF CAR BATTERY

Most Troubles Are Due to Failure of Owners to Carefully Observe Instructions.

### MAKE FREQUENT INSPECTIONS

See That Liquid Solution Is Up to Proper Level and Save Expensive Dismantling and Rebuilding—Some Simple Points.

Nearly all battery troubles are due to the owners' failure to observe a few simple instructions. The motorist who gets the greatest power, the most service and the longest life from his storage battery is the one who is cautious in the care of it and makes it a practice to examine it at least once every two weeks in winter to see that the liquid solution is up to the proper level.

These periodic tests are highly important. They enable you to tell in advance when your battery is in danger of being ruined through under-charging or overheating, when minor troubles in the electrical system are draining the strength and endurance of your battery, when an inexpensive freshening charge would save expensive dismantling and rebuilding later.

Few Simple Suggestions. Here are a few simple instructions, which, if followed, will lengthen the life of your battery, and give more satisfactory service.

Under no circumstances use anything but pure distilled water. "Boiled" water will not do, it must be distilled water from which all impurities which would injure the battery have been removed. If you do not care to add distilled water yourself make arrangements with the nearest service station to do it for you.

Acid or electrolyte should never be added except by an expert battery man.

All metal parts of connectors, which are not lead-coated, should be kept covered with a thin coating of vaseline.

Look at your battery occasionally, and if the solution has sprayed or spilled, wipe clean with a moist sponge.

Don't lay tools, or anything else, across the top of your battery.

Remember that your battery isn't expected to keep spinning your engine several minutes at a time. It can do it but it is bound to shorten the battery's life.

If your engine does not start promptly when you operate your starter, make sure your ignition switch is turned on and that your carburetor mixture is rich enough before using your starter again.

In cold weather if your engine doesn't start promptly see whether it is being sufficiently "primed."

If your battery is to stand idle with your car out of commission for a month or more at a time, take it out of the car and leave it with a service station to be cared for.

Cause of Dim Lights. If your lights are dim or there are any other indications that your battery is "run down," it may be due to the fact that you are running the car too little to keep the battery charged or the generator may not be charging properly, or a wire "short circuited."

If you cannot easily locate the trouble, go to a service station and have an inspection made.

MAKE UNNECESSARY TROUBLE. Many Owners by Indiscriminate Changing of Adjustments Do Much Harm to Engine.

A great many car owners in searching for trouble create more than they find. By that is meant that indiscriminate changing of adjustments usually gets the operator further away from the real cause of the trouble. The best piece of advice that can be offered the owner is first to be sure what the trouble is and then start to rectify it.

Don't Force Plugs. Spark plugs should never be forced into position by severe wrench action. They should seat firmly against a copper asbestos gasket with but little more force than can be applied with the fingers.

To Prevent Rust. The rusting of shock absorbers and springs may be easily prevented if the car owner will keep on hand a small can of fender-enamel with which to touch up bare spots as soon as they make their appearance.

### FOCUSING LIGHTS IS CAUSE OF ANNOYANCE

Illustration Given Herewith Shows Right Adjustment.

Some Makes of Cars Have Provided Means of Adjustment to Correct Tilting of Headlights in One Direction or Other.

The matter of focusing lights is one which causes motorists a great deal of annoyance. All modern electric lights are equipped with some method of adjustment so that the light can be made to throw a clear strong ray where desired.

This adjustment consists of some method of lengthening or shortening the distance between the light bulb and the reflector, as desired. Usually the means for doing this is easily understood and consists of a threaded holder for the bulb with a lock nut for securing the holder in the position arranged.

A method of finding out just how each lamp is operating, and of having

Proper Adjustment of Headlights.

a definite basis upon which to do the adjusting, is shown in the diagram, which explains itself, writes W. V. Helma in Farm and Fireside.

It will generally be found that one of the headlights has a tendency to tilt in a direction other than straight ahead. Some makes of cars have provided a means of adjustment that will let this be corrected. Where such a method is not provided it will be necessary to use a heavy monkey wrench for bending the lamp supports to the desired angle.

### CHANGING TIRES IS FAVORED

Owner May Secure Maximum Mileage by Using Spare on Each Wheel for Week at a Time.

For the man who wants to get maximum mileage from his tires the habit of using a spare tire to afford regular changes, beginning at the right front and progressing around the car, is a valuable one to form. In this way each tire gets a week's rest in four (turning) while time it should be gone over carefully and have any cuts and abrasions vulcanized.

### AUTOMOBILE GOSSIP

Automobile dealers in the United States number more than 25,000.

A humming noise in the transmission case is very likely due to an excess of heavy grease.

Postal chauffeurs in Boston who drive at a greater rate than 12 miles an hour in their efforts to speed delivery or make up for lost time will be dismissed from the service.

There are at present, 23,000 passenger cars, trucks and tractors in use in Belgium. This number is less than the registration of motor vehicles for the state of Wyoming.

American made passenger automobiles in Uruguay have become popular because of economy of gasoline and oil, speed, flexibility, lighting, self-starting and appearance of body.

Automobile transportation has been added to the regular course of industrial engineering at New York university. This course is the first of its kind to be given by any university in connection with industrial study.

At the beginning of 1921 there were still seven states in which motortrucks were registered at the same rate as passenger automobiles.

South Dakota now leads all other states with one motor vehicle for every 54 persons, followed by Ohio, Nebraska and California.

In Colorado, New Mexico and Oregon, in addition to the registration fee, a state tax on gasoline or other products used for the propulsion of motor vehicles is also levied.

### LESSON FOR JULY 3

#### THE EARLY LIFE OF SAUL.

LESSON TEXT—Acts 21:39; Deut. 6:4-9; 11 Tim. 3:14, 15.  
GOLDEN TEXT—Today if ye will hear his voice, harden not your hearts.—Heb. 3:7, 8.

REFERENCE MATERIAL—Deut. 4:8, 10; 6:2-5; Josh. 4:20-24.  
PRIMARY TOPIC—When Saul Was a Boy.—Acts 22:3; Deut. 6:4-8.  
JUNIOR TOPIC—When Timothy Was a Boy.—11 Tim. 3:14-15.  
INTERMEDIATE AND SENIOR TOPIC—Jewish Boy Life.  
YOUNG PEOPLE AND ADULT TOPIC—Saul's Early Training and Education.

We are now entering a six months' study of the life and teachings of one of the greatest men who ever lived.

I. Saul's Birth (Acts 21:39). His parents belonged to the tribe of Benjamin and were "Hebrews of the Hebrews," that is, Jews who have not become contaminated in their ancestry through intermarriage with the Gentiles (Phil. 3:5).

1. Time of. It is impossible to determine the exact year of his birth, but the probability is that it was practically the same as that of Jesus. He was a "young man" when Stephen was stoned (Acts 7:58). "Young man" may mean any age from twenty to thirty. About 60 A. D. in the Roman prison he calls himself "Paul the aged" (Phil. 1:13). This distinction would hardly be appropriate for a man under sixty.

2. Place of. (v. 39). Tarsus, the capital of the Province of Cilicia. Representative business men came here from all parts of the world. It was a self-governing city which made citizenship therein honorable. Besides, it was one of the three great educational centers of the Roman empire. God's providence ordered that the apostle to the Gentiles should be born in a city where he would encounter men of every class and nation, making him broad in his sympathy and tolerant in his dealings with others.

II. Saul's Home Training (Deut. 6:4-9; cf. 11 Tim. 3:14, 15).

He was brought up in a pious home (Phil. 3:5). In the passages cited above is given the responsibility of a Jew in the training of his children.

1. Central truths to be taught (vv. 4, 5). (1) Unity of God. "The Lord our God is one Lord." This was a testimony against the polytheism existing among the Gentiles of that day. He is God alone, therefore to worship another is sin. The word translated "God" is plural in form, giving room for the doctrine of the Trinity—Father, Son and Holy Spirit. The great need of the world is a recognition of the fundamental doctrine of the unity and trinity of the Godhead. There can be no established order until God is given His rightful place; neither can there be any moral wealth. (2) Man's supreme obligation (v. 5). God should be loved with all the heart, soul and might, because He is God alone and supreme. This being the first and great commandment, we know what is man's supreme duty.

2. How these truths are to be kept alive (vv. 6-9). The place for God's Word is in the heart. In order that it may be in the heart (1) "teach it diligently to thy children" (v. 7). The most important part of a child's education is that given by parents in the Word of God. (2) Talk of them in the home (v. 7). How blessed is that home where God's Word is the topic of conversation. (3) Talk of them when retiring for the night (v. 7). The last thing upon which the mind should rest before going to sleep should be God and His truth. (4) Talk of them when rising in the morning (v. 7). How fitting that God should speak to us the first thing when we awake! (5) Bind them upon thine hand (v. 8). This was literally done by the Jews, even to the wearing of little boxes between their eyes. (7) Write them upon the posts of the houses and on the gates (v. 9).

Doubtless Timothy's home training was similar to Saul's (11 Tim. 3:14, 15). From a child Timothy was taught the Holy Scriptures (11 Tim. 1:5). This was done in the home by his mother.

III. Saul's Education (Acts 22:3).

1. In college at Jerusalem. A Jewish child became a child of the law at the age of thirteen. Most likely at this age he went to Jerusalem to enter upon his course of study. Here he sat at the feet of Gamaliel, one of the most eminent teachers that ever blessed Israel. The course of study here was restricted to the Holy Scriptures.

2. A trial at Tarsus. Perhaps after finishing his college course at Jerusalem he returned to Tarsus and learned a trade. One rabbi said, "He that teacheth not his son a trade doeth the same as if he had taught him to steal." The trade he learned was tent making. This came in very good in his later life, enabling him to support himself while preaching the gospel.

### Our Trust in God.

When we are lost in the great maze of life and wander through the streets of this world feeling that the familiar path is gone; when we see no landmark of duty, no inspiring light of attractive work, and know not where we are; then, if our trust in God does not fail us, we learn lessons we should not otherwise gain. We learn self-direction or humility; we learn to cast our care on Him who cares for us; we learn to be grateful for every kindness that others can do us, and to respect all forms of life and call no man common.—James Freeman Clarke.

Gideon Is Called. And there came an angel of the Lord, and sat under an oak which was in Ophrah, that pertained unto Joash the Abiezrite; and his son Gideon threshed wheat by the wine press to hide it from the Midianites. And the angel of the Lord appeared unto him, and said unto him, the Lord is with thee, thou mighty man of valor.—Judges 6:11, 12.

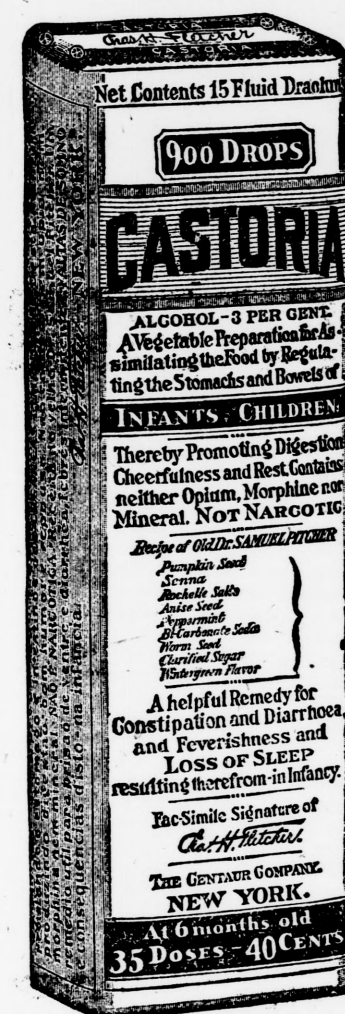

## Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance.

When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Exact Copy of Wrapper.

## Children Cry For Fletcher's

### Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy? why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

### ADMITTED HE HAD NO HEART

Truly Moving Situation When Woman Forced Her Partner to Confess to Sorrowful Fact.

"Have you no heart?" The woman's eyes dimmed as if tears were on the horizon of her hopes. She had paled perceptibly, and the man read the message in her liquid orbs.

"Have you no heart?" The appeal left him cold, and the burly man shrugged his shoulders nonchalantly. With a grim look he shook his head slightly.

At the negative movement the woman's eyes stared hopelessly into space and something akin to a sigh escaped her dainty lips.

No heart? And she had foolishly believed that he possessed one! She felt crushed!

With a despairing gesture she watched the others take the trick. Whist is an absorbing game!

A good conversational story-teller soon learns to tell 'em too long.

### To Encourage Salvage.

Following the policy of rigid economy laid down by the secretary of war, and with his approval, the quartermaster corps hereafter will teach enlisted men salvage work. A school for training the personnel in the repair of clothing and shoes has just been established at Camp Jackson, S. C. and another school for the repair of typewriters at Fort McPherson, Ga.

This training of the men will be part of the routine work of the salvage shops, and additional schools will be established as soon as possible at convenient points in other corps areas. In this way much material bought for the war can be repaired and utilized for the peace-time needs of the army, saving thousands of dollars to the taxpayers.

### Conference.

"How do you think this problem ought to be handled?"

"Nothing occurs to me," replied Senator Sorghum, "except the program usual in such cases; call a conference in the hope that something unexpected will happen."

## Oh How Glorious to Be Free From Rheumatism's Tortures!

Just suppose you could be free from your despoiled, agonizing rheumatic aches and pains, your stiff joints and unsightly swellings! Wouldn't you give anything to get rid of them?

You have doubtless rubbed on outside treatments; most rheumatism sufferers have. Some of these take the edge off the terrible pains for a few hours, but they do not strike at the cause, which nearly always lies in the poisoned, impoverished blood.

When this is so, you need an internal remedy, one that will take out the impurities that are torturing you, one like famous S.S.S., which has relieved thousands of cases of rheumatism all over the country just this way.

Get S.S.S. from your druggist today, and after starting with it write us a history of your case, addressing Chief Medical Advisor, 877 Swift Laboratory, Atlanta, Georgia.
